

I support K-LOVE radio and believe it is not only in my interest but also the best interest of our local community to keep K-LOVE radio station on the air. I know many people that would be upset if this station was no longer accessible. It has uplifting, moral and ethical messages and music. I would much rather hear my five year old sing along to a song with a message of love than about sex, drugs and immoral behavior such as the songs heard on other stations. Please don't take that away from our communities children.
